BROADWAY PROJECT UNDERWAY

The DIMMER VIEW

by MAX GOODWIN

We owe a nod of appreciation to the Capital's best editorial writer this newspaper has ever had . . . Congressman James B. Utt, for these editorial thoughts this week.

Says Jim, "If you think taxation without representation is tyranny; just look at the tryranny you have WITH representation!"

Then, in his newsletter to us, he charges that we are being taxed and governed by boards, bureaus, and commissions, the members of which cannot be removed by our constitutional right of election . . . that even some of our global policy is being established by, of all persons, the Capitol's civil service employes.

As Utt explains it, the average citizens will tell you that we have a government of laws administered by elective officers and therefore it is a government of, for and by the people. This is the way it should be, "but," says Utt, "let's examine the facts."

There is more administrative law on the books governing our citizens than there is statutory law enacted by Congress, he points out. This administrative law has the force and effect of statutory law, and while it is supposed to be within the purview of the statute authorizing it, there is no assurance that it will be.

As a result, every bureau, board and commission in Washington writes a set of regulations according to its own interpretation of the federal statute, places those regulations in the Federal Register, and that becomes the administrative law which governs you.

We are rapidly coming to a point where a complete change of your federally elected officers, including both Houses of Congress and the White House, can mean little change in policy.

You are governed by people for whom you never voted, for whom you never will vote, whom you have never seen, and whom you cannot recall by your vote. They are entrenched in the boards, bureaus and commissions, even at the policy level.

For example, you may think the Secretary of Labor sets the policy of his department, but, according to Congressman Utt, much of the policy is set by civil employes who have been with the Department for 20 years, and they have no intention, now or ever, of recommending to the Secretary of Labor any policy which does not fit their personal philosophy of government, and you cannot remove them or replace them with your ballot.

The same situation exists in the State Department, and in fact in every bureau, board and commission, Utt says. This is a form of invisible government and can lead to the most oppressive type of tyranny.

Congress must assume a great deal of the blame for constantly delegating powers and duties which rightly belong to Congress although much of it happened under a temporary emergency situation. Once delegated, the powers are never returned.

Congress is being asked currently to delegate to the Executive (which actually means the State Department) the authority to allocate sugar quotas to countries other than Cuba. The temporary emergency is Fidel Castro. Once delegated, the author-

Machines churn as Daley Corp. begins reconstruction work on Broadway in Lemon Grove. Street will remain open to traffic. Workmen are to rebuild north side first, then switch to south side. —Staff Photo

Construction Starts Ahead of Schedule

Men and machines of the Daley Corp. have begun way.

Men and machines of the Daley Corp. hav begun moving dirt along the street in preparation for a re-paving and widening job that will turn the narrow street into a four-lane business boulevard with center lanes.

The reconstruction project will stretch from College avenue eastward almost a mile to Olive avenue. There it will drop to its present two lanes and continue on eastward through Lemon Grove.

The beginning of the job started about three weeks ahead of the time expected by company officials. They had said that they would begin construction about May 15, after utility poles along the street had been moved.

The initial dirt moving, along the north side of Broadway, was started before the poles were moved. Engineers on the job said that the removal of the poles had been scheduled a week earlier.

"They didn't get them moved," one engineer said, "so we just started moving dirt around them."

The construction company is to re-build the north side of the street first, keeping the south side open to traffic. Then the south side will be re-built, with traffic using the new north lanes of the street.

County road officials have said that the complete reconstruction project should take about five months.

In addition to the actual street project, the contract calls for installation of some concrete driveways and sidewalks, cross gutters, storm drains; the removal of the present traffic signals as Massachusetts, and the installation of traffic signals at the same intersection and at West and Buena Vista avenues, plus a flashing signal at Olive avenue.

Judge Attacks 'Perversion' Of State Law

El Cajon Municipal Court Judge R. Fenton Garfield made a strong pitch Friday for election to the San Diego Superior Court position now held by Judge Edgar Hervey..

Garfield, speaking at the Lemon Grove Men's Club, never once mentioned Hervey in his talk. Only once did he mention his candidacy.

But he attacked "perversion" of the law and declared that "some judges stretch every technicality of the law in order to protect the criminal."

Judge Garfield cited cases in which criminals were known to

be guilty—and had even confessed—but were freed because judges ruled that evidence against the criminals had been "illegally obtained."

"If an officer violates a person's civil rights in order to prove that person guilty of a crime," Judge Garfield said, "a judge is doing society no favor by turning the criminal loose.

"I say that the criminal should be sent to prison. If the police officer does something wrong, punish him too—but don't just turn everybody loose on society."

The judge insisted: "I believe in people accused of crimes having rights. But Mary Lou Olsen and your children have rights too.

"The law should be certain, and should be handled certainly."

Supermarket Variance Approved

SAN DIEGO (CNS)—A zone variance to permit building a supermarket in Lemon Grove was approved Friday by the County Planning Commission

The applicant was Art Leitch, who asked to be allowed to build 45 feet, instead of the required 75 feet, from the centerline of the street. The supermarket site is in the west side of Main street, between San Pasqual street and Massachusets avenue.

After filing his application, Leitch asked the commission to put off his Friday hearing, as he was to be out of town and could not appear. However, the commission, when it found there were no objections from other property owners and received its own committee report recommending approval, approved the variance without Leitch being there.

Vegas Trip To Be Prize In L.G. Chamber Contest

The only fund raising project of the Lemon Grove Chamber of Commerce for 1960 will be a contest with a three-day vacation to Las Vegas as a prize, according to Larry Folda, chamber president.

According to Bob Vaught, finance committee chairman, the prizes include a three day stay for two at Las Vegas' Hotel Sahara, transportation via Western Air Lines, and $50 a day spending money for the lucky contestants.

Winning contestants will be announced on Saturday, July 2, he said.

The project is expected to raise approximately $6,000 for 1960 chamber operational expenses, according to Folda. Increased expenses and carry-over obligations from last year dictated the need for the fund-raising contest, he said.

All chamber members will be asked to participate in the project, according to Vaught. He said a subsidiary contest among members would be a window decoration affair with $20 in cash and a year's membership going to the winner. Windows are to carry the theme of Week-end in Las Vegas and emphasis will be on recreation, he said.

Competition for prizes will get underway next week, Vaught said. Details and judges will be announced later.

Water Men Plan MWD Aqueduct Celebration

Helix Irrigation District officials expect to attend a celebration to be held at the foot of Mount San Jacinto in Riversiide County on May 11 when the Metropolitan Water District of Southern California will commemorate the completion of the giant Colorado River Aqueduct to its full delivery capacity of more than one billion gallons of water a day.

Robert B. Diemer, MWD general Manager and chief engineer, stated that the celebration will mark the completion of a $200 million expansion program started in 1952 to bring the aqueduct to its full delivery capacity. The completion of the main aqueduct expansion work doubles the capacity of the aque-duct compared to a year ago, Diemer said.

"This means that the Metropolitan Water District can now deliver enough water to the coastal plain of Southern California to meet the needs of 3,000,000 more persons than are presently living here," the District official declared. "This is water for the MWD areas to grow on pending the bringing in of water from the North," said Diemer.

Officials, civic leaders and dignitaries from the 89 cities and large unincorporated areas within the district will participate in the event. The ceremony will be highlighted by the installation of a commemorative plaque at the west portal of the San Jacinto Tunnel where the water from the Colorado River enters the coastal plain of Southern California.

$40,000 Raise Asked By School Employes

Salary increases, which would would be $1.81 for each $100 worth of assessed valuation. Currently, it is $1.73.

Harry Weisgerber, spokesman for the Lemon Grove District Teachers Association, made the new proposal to the board. He said the request for raises for school personnel was in line with the scale being paid in other districts. He cited nine other districts' rates for comparison.

Under Weisgerber's proposal, increases for teachers would range from $150 to $275 a year with the larger increases going to those in the higher income brackets.

Breakdown by classes of personnel lists teachers with increases of $27,300; administrative personnel would be $4,000 more, and classified personnel would gain by $9,000 during the budget year.

The board also heard District Superintendent Byron Netzley report that two schools were entered by vandals during the weekend. At Mt. Vernon school, there was no damage nor any loss. At San Miguel vandals took food articles valued at $17. He opined the vandals were juveniles and suggested a policing system that would discourage the practice.

Board members said the County School Superintendent's office would soon name a board member to replace Barney Ambrose, recently retired.

Salary increases, which would cost the Lemon Grove school district $40,000 next school year, were asked jointly by district teachers, administrative personnel, and classified employes of the district Monday night.

School trustees, before whom the new salary proposal was made, did not indicate whether or not they would take a sympathetic view of the request. The proposal will become part of the budget study going on concurrently.

Increases, if granted, would represent about three percent of last year's budget. Teachers were granted pay boosts amounting to four and a half percent last year.

Paul Reynolds, school district business manager, said the 1960-61 budget probably would be near $1,680,000 with $1,036,207 of it going for instructional salaries under the new schedule.

To accommodate the requested salary increases, the tentative budget was whittled by $40,000. Items ranging from travel expenses to custodial assistants were lopped off. A transfer of $15,000 from undistributed reserve funds made up the bulk of it, however.

Reynolds said the estimated assessed valuation of property within the district would be $33,594.00 this year and the new tax rate based on the tentative budget and estimated valuation,

Grove Youngsters To Present 'World' Concert

Lemon Grove youngsters will be presented next week in a two-day "Music Around the World" concert.

Performances, directed by Mrs. Ada Krimsky of the school system, are scheduled at 7:30 p.m. Tuesday and Wednesday at the junior high school auditorium.

On Tuesday, choruses from Golden Avenue, San Miguel and Vista La Mesa schools will perform separately and as a combined chorus.

On Wednesday, youngsters from Mount Vernon, Monterey Heights and San Altos schools will present a similar program.

Both events are open to the public without charge.

HIGH FENCE

SAN DIEGO CNS)—Permission to build a six-foot, eight-inch fence for a residence at the northwest corner of Itzaamna road and Nabal drive, Spring Valley, was granted to James D. Penry at Friday's session of the County Planning Committee.

Rabies Crisis Brings Call for Vaccination

SAN DIEGO (CNS)—The rabies crisis in San Diego County Tuesday resulted in the County Board of Supervisors setting May 3 at 2 p.m. as the time for a public hearing on a proposed ordinance to make anti-rabies vaccinations mandatory for all dogs in unincorporated areas.

Supervisors received a report from Dr. E. R. Quortrup, director of the livestock department, of the finding of a rabid dog in the Eden Gardens area.

Quortrup and Dr. J. B. Askew, County public health officer, joined in asking the board to call a public hearing as quickly as possible on the proposed new ordinance. They promised that an ordinance would be drawn up ready for action when the hearing was held.

Supervisors showed some reluctance to call a hearing that would involve an ordinance that they had not yet seen.

"Are we going to get a chance to look at this, or is it going to be presented to us cold at the hearing." asked Supervisor David W. Bird.

Bertram McLees Jr., assistant county counsel, assured the Board that a draft of the ordinance would be available before the hearing. "Our office has been working on the ordinance," McLees said. He added that the draft is "practically completed."

Under the state health and safety code, McLees declared, vaccinations against rabies are required when an area has been declared to be a rabies area. This has been done by the state, for a 12-month period, so the vaccinations are already required.

But the ordinance that Supervisors will consider is one under preparation for several months, as the result of requests from dog breeders and owners of kennels.

The hearing on the ordinance is being speeded up as a result of the current emergency situation.

OPEN HOUSE SET AT AUDUBON SCHOOL

Open house for Audubon School will be this Thursday from 7 to 8:30 p.m. Children's work will be displayed as well as special science, social studies and art exhibits. There will be a bake sale in the auditorium, with a variety of cakes and pies offered. This is a special event for public schools week, but parents are reminded that they are welcome to visit the classrooms at any time.

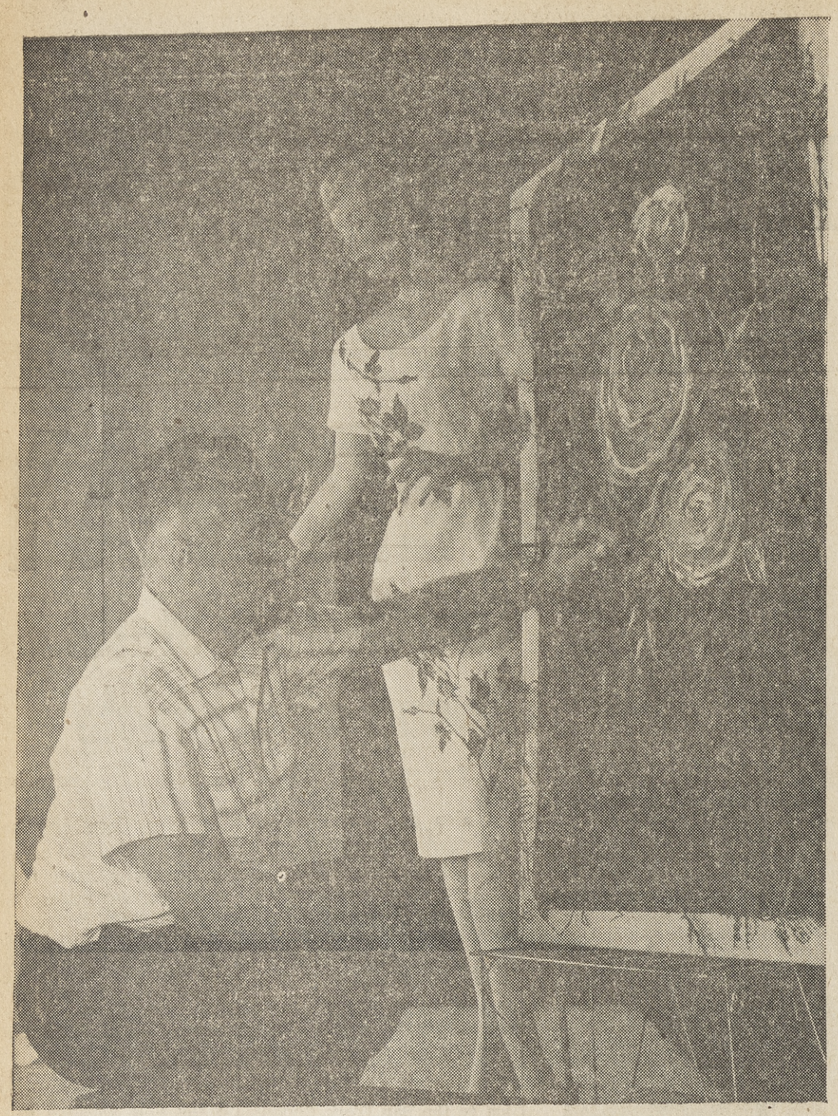
Land Division Ordinance Wins Approval

SAN DIEGO CNS)—Approval of the proposed ordinance to control land divisions in the county was voted Friday by the County Planning Commission.

The Board of Supervisors has set May 2 as the date for a public hearing on the law being proposed by a group of private citizens and county officials. The county has been without controls on land divisions for almost a year, and the proposed ordinance is to take the place of section 548 of the zoning ordinance, repealed last June.

The new law has received the backing of a number of civic groups, including the Farm Bureau.

LEMON GROVE STORES OPEN 'TIL 9 FRIDAYS



Bob Davies: artist, window trimmer —Staff Photo

Versatile 'Display Man' Paints 'em on the Spot

By Don Wilson

"You can be sure of getting the right combination of art work and clothing style if you do the art work right on the spot," says Bob Davies, who is a "display" man.

Davies, who lives on south Bonita street in Spring Valley, does the highly original and sophisticated window trimming for such stores as Marsi's in Lemon Grove, El Cajon and Chula Vista; the Adorable Shops in El Cajon and North Park; Hunsicker Furs, and some other individual stores in the area.

His approach to the "display" problem is to bring a pile of illustration board and his paint box to the store. Then, he looks at the clothing and accessories that are to be featured in the store's window that week.

And he whips out his paints and does paintings and designs right on the spot to fit in with his plans for the display. The result is that his colors always fit the colors in the clothing, and the theme of his "props" always fits the theme of the styles and the season.

It would be difficult to show anyone what Davies has done in the past, because passersby are always buying up his window paintings as fast as he does them. Many a home in the area now boasts a painting which used to be part of a window decoration.

He uses such unorthodox methods as combining dazzling backgrounds (squirted out of a push-button paint can) with pastel-cool foregrounds (daubed on in water colors with a brush). And sometimes he does both at once because he is ambidextrous.

Born in Syracuse, N.Y., Davies attended Syracuse University night classes for his art training. He has taught display work at San Diego junior college in the JC's vocational school.

Past president of the San Diego Display Assn., Davies one year won the Outstanding Display Man award for the area.

Does he do landscapes and such as a hobby?

"Not on your life," Davies says, "I enjoy doing the art work for my windows so much that my job is also my hobby. I don't need any hobby in which to work out my frustrations as other commercial artists do."

But Davies admits that there was a time when he did need such an outlet. That was when he was working as an illustrator for an aircraft engineering department

"I had no freedom at all then," he says. "Every stroke of the brush or pen was dictated by someone else.

"But now I have only one dictator: my own sense of color and balance.

"It's much better this way."

Spilled Gasoline Threatens Grove Business Area

Gasoline which poured from a hole in an automobile fuel tank Friday threatened part of the downtown Lemon Grove business district for a while.

Morris Kahan, delicatessan operator, said that had anyone dropped a match "the whole block would have gone up."

Fire chief H. R. Hensley said that George Davis, of San Diego, had parked his nearly-new car in front of the Lemon Grove Department Store. A hole opened up in the tank, he said, and gasoline poured out onto the pavement. It covered an area about the size of an ordinary room in a house running under other cars.

Firemen were called, and washed the gasoline off the street.

There was no fire.

Two Acres Rezoned For Multiple Houses

SAN DIEGO (CNS) — Two acres of land located in Spring Valley on the east side of Bonita street, north of San Juan and south of Sierra Madre road was rezoned Friday for multiple family dwellings by the County Planning Commission.

The request was made to the commission by W. M. Spurlock and other property owners of the area. The commission approved the request because the property on the west side of Bonita and adjacent property to the south recently had been zoned for multiple houseing.

One-Foot Strips Of Land Given To Road System

SAN DIEGO (CNS)—Acceptance of three one-foot strips of land in the La Presa area into the county's road system was approved Friday by the County Planning Commission.

The strips are in the first unit of Spring Valley Ranchos subdivision. They were kept in private hands to promote the orderly growth of the area," the commission was told.

Acceptance of the strips was voted because an adjacent subdivision unit proposes to dedicate and improve the rest of the street, so the one-foot strips are required.

The commission voted to make its approval of the acceptance of the strips effective after the subdivision files its final map, showing the street pattern.

Sanitation Directors Told to Ask Report On County Service

SAN DIEGO (CNS)—Directors of four sanitation districts have been ordered by the County Board of Supervisors to request a written report from the Public Works Department designating each parcel of property receiving county service during the year, and the charge for each parcel.

Receiving the directive were the Alpine, Cardiff, Lakeside, and Spring Valley Sanitation Districts. The report is to be filed with the clerk of the Board. The action is a budget-time routine, as the Supervisors are also the directors of the sanitation districts.

ity will never return to Congress. One of the reasons is that Congress delegates these powers without sufficient guide-lines and limitations to determine whether the admistrative law which follows falls within the intent of Congress.

What we need, says Utt, are 250 Representatives and 51 Senators who will pledge themselves to recapture most of these powers and duties, thereby returning the government of the United States to its people.

* * *

Recently, we reported the desperate plight of our 16 to 18 year-old youths for whom there are so few gainful employment opportunities.

Approximately 300 anxious, energetic youngsters responded recently when we made it known that part-time employment was available at this newspaper office.

As we talked with each applicant we soon realized that most of them were reconciled to being rejected, even before the interview was well under way.

It is shocking that we have spawned the "hope of tomorrow" into an atmosphere where "beat" is more than a cute catchphrase. Young men seeking employment should be bravely exuding self-confidence as they approach the threshold of life's responsibilities.

Instead, many of them made the try in a half-hearted manner, utterly defeated and frustrated, it appeared.

The only point in reporting this for a second time (we did it when we interviewed the applicants last month) is to plead for help for these youngsters.

Obviously, there are not jobs for all but we can provide an information center so that the frustrating chore of providing job information can be reduced to an uncomplicated formula.

We, and others, can channel all job opportunity information to a central headquarters. Headquarters may be anyone's home or place of business where a phone is continually attended. Persons who offer work (such things as car-washing, garden labor, window washing are welcome tasks-for-pay) would contact the headquarters and soon a youth would be using some of his energy and getting some pay, the first step toward measuring up to adult responsibilities.

Such a center would help relieve the helplessness and hopelessness that so many of our youngsters possess today.

This, then, is a plea for someone, who has the desire and determination, to provide a rallying point for youngsters seeking work. It's a wonderful opportunity to help some of these wonderful kids.

County Refuses To Take Road

SAN DIEGO (CNS) — A request for the county to accept a Spring Valley road was turned down Friday by the County Planning Commission, on the basis that the applicant would be the only one to benefit.

Robert M. Dunbar asked the county to take over a portion of Mozelle lane, in the Casa de Oro area.

But the planning committee that studied the area recommended denial. The committee's report said: "This proposed road adjoins subdividable property and should be accepted only as a part of a final subdivision map. The property owner-petitioner in this case, whose land is almost surrounded by legal subdivisions, is the only one who would benefit from this road opening."

Zone Variance Okayed for Home

San Diego (CNS) — Permission to build 60 feet from the centerline of Conrad drive, Spring Valley, was granted Friday by the County Planning Commission to Alexander W. Nason.

Nason owns land on the south side of Conrad, west of Resmar, and plans to build a residence. The variance was granted from the requirement that no construction be closer than 100 feet from the center of the street.

The commission approved Nason's request after a report from its own ingestigating committee that the variance was needed to make normal use of the property.

Consolidation of School Districts Approved by Board

SAN DIEGO (CNS) — The proposal of complete consolidation of the La Mesa-Spring Valley School District election with the June 7 primary cleared the last hurdle when the County Board of Supervisors received formal approval of the district's board of trustees.

The Supervisors had approved the consolidation two weeks ago, after stipulating that the consolidation be complete rather than partial as was first requested.

The matter was referred to the county counsel for a report concerning legal points, but Supervisors indicated that the district's apportionment authorization and maximum tax rate increase issues would be on the primary ballot in June.

Annexation of Areas To Sanitation District Approved By Board

SAN DIEGO (CNS)—Sewers and subsequent annexation of five separate areas to the Spring Valley Sanitation District has been approved by the County Board of Supervisors.

The petition for the installation of the sewers and final annexation was submitted to the Board by William E. Long. The petition was signed by 13 property owners.

The property involved all lies adjacent to the boundaries of the Spring Valley Sanitation District. Some of the parcels are in the Lemon Grove Sanitation District, but would be served by Spring Valley under the annexation.

LET US ALL PRAY TOGETHER AS A FAMILY

Christ kindles within us a yearning to be more than "one of the crowd." The approval of Godis more rewarding that the approval of the crowd. As Joan of Arc says in Geo. Bernard Shaw's play, "My loneliness shall be my strength; it is better to be alone **with** God than loved by a multitude **without** Him. In his strength I will dare and dare and dare until I die."

Once Over Lightly

by Don Wilson

I always have trouble with my readers. They never believe that I work hard on my job here at the newspaper. (As a matter of fact, I have the same trouble with my boss.)

"Do you do anything else besides write that silly column?" people ask me.

At first, I used to explain all the thousands of other things that I, or anyone else in a similar position would do, but nobody ever seemed to believe it.

"Heck, no," I say now when I'm asked the question.

And there are people who don't like the column (shocked, aren't you?)

"Why," one man used to complain, "don't you use my press releases if you have all that space to waste?"

And there have been people who insist that ANYBODY could write a better column than I do. "Even your little boy could do better," they say.

Okay, smart alecks, let's give him a try.

—o—

daddy says that i can use his tipriter to rite a column for the paper so i am doing it. this is the first time that he has that i have tiped without him hitting my hands.

now that he lets me do it, it isnt as much fun as it was when i had to push the keys in between hits.

of course i am having to get a little help from him on speling because he has a colledge education and i am only 14 months old and i haven't even gone to kindergarten yet and i don't really know very much about riting.

you know. tipriters are funny things. when you push down on the black thing on top the big part of the tiperiter goes away over bang and if you push just one of the little keys it goes up and down but if yo7y xxx you push a whol lot of the keys at one time the n every thing sticks together and daddy has to cuss a little bit and reach inside of it and straten thnings out.

daddy gets even madder when i read his books and the records. the records are not as much fun to read as the pagexx a s the books because books have lots of pages and gexx records just have one big page sxx with a record in the middle. when i read the books i like to look at all the pages and sometimes i take the pages out so i can see them better and daddy gets mad. he gets mad too when i eat the books but he shouldnt get mad because the books dont taste very good anyway.

but i am glad that he let me write this column for him. it probably is the best one that he will have this year.

—o—

Well!

That's the last time I let that little rascal touch the typewriter.!

If there's anything I can't stand, its a smart aleck kid.

Miguel Student Wins National Scholarship

Richard Harold Johnson, 2046 Dayton, Lemon Grove, a student at Mt. Miguel high school, has won a Ryan Aeronautical merit scholarship in nationwide competition.

He is the son of Mr. and Mrs. Harold R. Johnson.

The Mt. Miguel student plans to major in mathematics at UCLA and go on to a career as a mathematician.

He has been active in student government in high school and has participated in the Chess club, International club and senior gift committee. He is a collector of stamps, works on scientific projects as a hobby and is interested in sports reading and music.

Two Ryan scholarships have been awarded in previous years. Other aspects of the program include direct grants to educational, scientific and charitable organizations, and scholarship loans.

There were approximately 55 students in California who won merit scholarships and about 800 in the nation. A total of 110 sponsors provide the scholarships.

Originally, top students in 1,400 high shcools took the first tests in the competition — the fifth annual one. From the thousands of students, 10,000 scmifinalists were named. Each semi-finalist took a second examination and filed personal histories; the schools also filed academic records.

From this material, the final selections were made — with about one out of 100 original contestants winning scholarships.

Market Gains New Owners, 2,000 New Families in 6 Years

BILLIE R. BARNES

JOHN W. BARNES

JOSEPH C. JEWETT

NORA A. JEWETT

One of the "pioneer" business firms of the Spring Valley Estates area has been purchased by two market-experienced families.

The firm is Noble's Market at Sweetwater and Jamacha roads and the families are Mr. and Mrs. John W. Barnes and Mr. and Mrs. Joseph C. Jewett, all formerly operators of Speedee Mart markets.

The couple bought the market from Mr. and Mrs. Clyde C. Noble who started the market only six years ago when hardly a handful of houses could be seen from the busy corner. The area south and east of the market was the once-busy La Presa airport upon which only a couple of hangars stood.

Today, La Presa has become Spring Valley Estates and across the road is Mt. Miguel Terrace, brand new communities built out of bare land during the past two years. The market in six years has become a trading center for many of the two thousand families that have come to live nearby during the past couple of years.

The Barnes and Jewett firm took the market over on April 18 and will retain Noble's name. Five full-time employees will include the owners' wives Billie R. Barnes and Nora A. Jewett. Phil Noble, son of the former owner, will remain as manager of the meat market.

The market will continue to specialize in USDA Good meats which have been the mainstay of the market for the past six years. The grocery department will continue to feature nationally known brands of merchandise at "chain store" prices.

Competitive prices, according to the new owners, are possible because of an affiliation with the A. M. Lewis Co., a co-operative buying agency supplying more than 800 local markets.

Another feature of Noble's is Orange Stamps, popular profit-sharing device. The firm intends to give double stamps on purchases of $10 or more as a regular feature according to Barnes.

Store hours will be from 8 a.m. to 9 p.m. seven days a week.

The new owners are offering many "get-acquainted" specials during the next couple of weeks after which a "grand opening" event will be held.

Watch the columns of this newspaper for exciting news concerning Noble's, the new owners suggested.

MORE MILK NEEDED

Nutritionists declare that while the nation's nutritional trend is upward, many families could improve their diets by having more milk readily available; suggest that a pitcher of milk on the table will encourage help-yourself-ness.

Woman's Club Nominates New Officers

Election of officers for the Lemon Grove Woman's Club will be held at the first meeting in May, according to Mrs. L. F. Vlach, publicity chairman for the club.

The club's nominating committee has selected the following members to make up the official family for the coming year:

Mmes. Robert E. Ball, president; William Bowlin, vice president; D. D. Lairsey, treasurer; E. I. Phares, corresponding secretary, and Walter Shimp, recording secretary.

Nominations may be made from the floor at the election meeting on May 13 at 1:30 p.m.

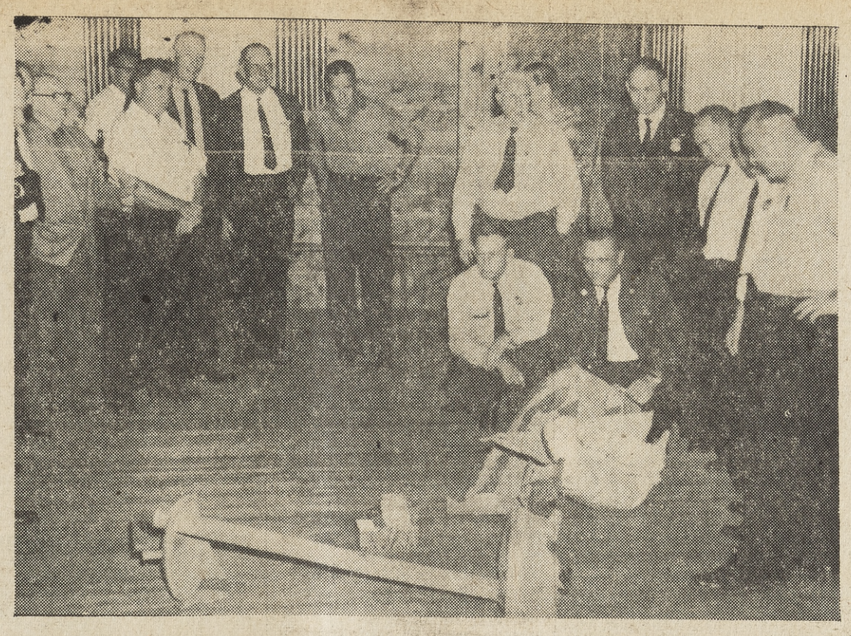
Installation of officers will be held at the club's meeting to be held Friday May 27. Meetings are held at the Woman's Club Clubhouse at Main and Olive streets.

GUHS To Continue Using Brydegaard Architect Firm

Authorization for continuation of architectural services for building projects under way with the estate of Herluf Brydegaard, recently deceased, was given by the Board of Trustees of the Grossmont Union High School District at its regular meeting Monday evening. The Board took the action after a report from Associate Superintendent Harold G. Hughes which indicated the plans for the 7th high school on Sweetwater Springs Blvd. were completed, the plans for the classroom additions at El Capitan and Helix High Schools were well under way, and that the continued services of the Brydegaard firm would expedite the completion of these projects. Architectural supervision at the Granite Hills High School at Fourth and Madison Avenues in El Cajon is also to be provided.

The Board also directed that legal counsel be obtained in protecting the interests of the district in this transition period.

Formal action to condemn a high school site needed at First and Central in Santee was taken. Also approved by the Board was a recommendation of the administrative staff for a reorganization of the district office space which is concentrated in the granite portion of the Grossmont High School plant completed in 1921 which has been abandoned for student use since 1955 because the building does not meet the rigid requirements of the State Division of Architecture..



Members of the County Fire Chiefs Assn. look at smashed water heater which wrecked home in Spring Valley. Chiefs met last week to install officers. —McKinley Photo

Fire Chiefs Assemble, Install New Officers

Spring Valley played host to the County Fire Chief Assn. April 21, in the Spring Valley Chamber of Commerce hall. There were 16 fire chiefs, three associate members and five guests. One item of business was the installation of three officers for the coming year: Fire Chief Raymond Halgren of the El Cajon Dept., as president; Chief Ward Ensley of the Escondido Dept., as vice president; and Spring Valley Chief Frank Berger, as secretary-treasurer.

Another important item of business was the display and discussion of the exploded hot water heater, which wrecked the Junior Holton home on North Cordoba in March. Chief Berger said that the scale in the copper gas supply tubing helped a great deal to set off the explosion.

He said the scale got lodged behind the gas control valve and wouldn't allow the gas to shut off when it got up to temperature. He said the increase in temperature and pressure forced the hot water back out through the cold water line to the water meter. The hot water apparently warped the disk in the water meter, shutting off the flow of water back into the water line.

Thus the water piping in the home became a closed system and the continued increase of pressure and temperature in the tank caused the tank to rupture and the superheated water instantly became steam, which caused the explosion.

Chief Berger says that people who are using copper tubing for their gas supply should change to aluminum or brass.

Installed as BWL Head

Mrs. Frank Thomas of Spring Valley was installed as president of the Lemon Grove Business Women's League Saturday night at an installation dinner at Red Coat Inn.

Thirty-five business and professional people took part in the affair. Mrs. Forrest Baxter and Mrs. Arthur Chapelle conducted the installation ceremonies.

Installed with Mrs. Thomas, who succeeded Mrs. Virgil Stevens, were Mrs. Harry Burris, vice president; Mrs. Frank Ellis, recording secretary; Mrs. Jim Oyler, treasurer, and Mrs. Harry Wilson, corresponding secretary.

MANY gas and electric customers, living in the Eastern District, are questioning the "San Diego" address and post mark on their recent bills. They evidently conclude that because the statements are mailed from San Diego, then all Company business must be conducted through a San Diego office.

SUCH IS NOT THE CASE!

Customer growth has made ie necessary for the Campany to invest in automatic billing equipment. This requires that all bills be processed and mailed from a central location. However, the records of service and accounts for our Eastern District customers are available at our district headquarters, 104 North Johnson Avenue, El Cajon. Here, facilities are maintained for the expedient handling of all business relating to gas and electric service. Calls to the San Diego office may require referral back to the Eastern District Office with subsequent delay.

Company district and branch offices have been established for customer convenience and we most earnestly urge users of gas and electricity to avail themselves of their nearest office facility.

DEL MAR — Thousands of premium books listing more than $13,000 in cash awards available for exhibitors in the annual Southern California Exposition and San Diego County Fair at Del Mar June 24 thru July 4 have been placed in the mails.

Earliest deadline for entries is May 28. This is for the National Horse Show. Nearly all other entry forms must be filed at the fairgrounds by June 1, according to Mrs. Erwin Barnhart of Del Mar, entry clerk.

Nearly 2,100 of the premium books are for the horse show; 1,000 for the Junior Fair held in conjunction with the exposition and 3,200 for senior departments.

Mrs. Barnhart has been associated with the exposition for three years and has succeeded Lorene Bohn of La Jolla as entry clerk. Copies of the three premium books may be obtained by writing Mrs. Barnhart at the exposition in Del Mar.

Benefit Barbecue Slated For East County Fair

EL CAJON—The annual benefit barbecue for the Junior Fair Fund of the Eastern San Diego County Fair will be held May 1 at the Alpine Youth Center. The proceeds go to the premium and prize fund for the 4-H and Future Farmers of America entries at the fair. This annual barbecue and other fund raising events are necessary because the Eastern San Diego County Fair does not receive any State aid, officials said.

Last year 1,372 people were served at the barbecue. This year, according to Jim Dyer, agriculture chairman, and Gene Squillaci, El Cajon Junior Chamber of Commerce representative, plans are being made to serve more than 2,000. Tickets are available from any Future Farmer of America or 4-H club member, as well as from the Jaycees.

In addition to the food, and over 1,400 pounds of beef have been ordered, there will be entertainment by Smoky Rogers and his band. There also will be animal displays, including the 900 lb. steer which will be won at a drawing at the fair at Gillespie Field May 25-30.

Egg Meetings Set

The University of Calif. Agricultural Extension service has scheduled three more meetings to discuss the handling and marketing of eggs on the poultry ranches. Slides will be shown on egg handling methods and egg quality standards. The following meetings are open to the public, says Robert H. Adolph, farm advisor.

WEEKEND MILK

Research shows that many families run short of milk over the weekend. Try the half gallons. They're both convenient and money-saving as the family raids the refrigerator.

Pay 'Punched' Utility Bills Same As Before, Says Gasco Official

Since March 1 customers of the San Diego Gas and Electric Company, in increasing numbers as new areas are added, have been receiving punched type bills mailed from San Diego where data processing equipment is located.

To date, approximately 75 per cent of all Eastern District customers have been served with the "new look" in customer billing, according to Kenneth Brown, district manager, who says that some confusion has developed over the "San Diego" mailing address carried on the bill.

Brown said that many district customers, noting the San Diego address, believe they should now conduct business with the company at a San Diego office. "This is not the case by any means," said the district manager, who added that the main office of the Eastern district is located at 104 North Johnson Avenue, El Cajon, with branch offices at 8329 La Mesa Boulevard, La Mesa; and at 3425 Imperial Avenue, Lemon Grove.

"These offices," said Brown, "are maintained for the convenience of district customers who may prefer to patronize their nearest office." Busines transactions such as trouble calls, new service, "turn ons," "shut offs" and bill payments are handled at these offices; in fact, any request for customer services can be accepted at these office locations, according to the district manger.

"The Eastern District is one of the fastest growing of the utility company's service areas and the institution of 'machine billing' is the direct result of area growth and a desire to improve customer service. Any misunderstanding over the mailing address is regretable and customers are reminded that we're still doing business at the same 'old stands' as noted in the utility company advertisement appearing in this issue," said Brown.

Tables Turn on Scots In Red Devils Battle

Coach Bill White's Helix Highlander baseball team had the tables turned on it last week in Metro League baseball action after edging past El Cajon 3-2 Tuesday, the cellar dwelling Sweetwater Red Devils upset the Highlanders with the same score in Friday's meeting of both teams.

The Scots scored twice in the third inning and once in the sixth on their clash with the Braves. El Cajon managed to score once in the fourth and once in the sixth for their tally.

George Sherrod went all the way for the Highlanders and was credited with the win, while Smith who went the distance for the Braves was the loser.

Each team collected 5 hits, and the Braves committed 1 error compared to the Scots' errorless efforts on the field.

The Red Devils scored 2 runs in their bottom half of the seventh inning to overcome a 2-1 Helix lead. The other Sweetwater tally came in the third inning, while the Highlanders picked up their runs in the second and sixth innings.

John Lippert started the pitching duties for the visiting Helix nine, but was pulled out in the third stanza when Sherrod came in. Nichols went the full seven frames for the winning Devils and received the win.

The loss dropped the Highlanders into a second place tie with the Grossmont Foothillers who split 1-1 in last week's action on the diamond.

Matadors Wield Sword; Bull No. 2 Wins

By Bill Ott Jr.

Mt. Miguel came from behind in last Tuesday's Metro League baseball game against the Sweetwater Red Devils on the Sweetwater diamond and nipped the Devils 5-3. But Friday afternoon was a different story and the Matadors fell to the Escondido Cougars 11-5 on the Miguel field.

The Red Devils picked up 1 run in the second, third and fifth innings for their total. They managed to get only 4 hits off Miguel hurler Rich Whisman and committed 2 errors afield.

Meanwhile the Matadors scored 1 run in the third, fourth and then exploded for 3 runs in the sixth for the victory. Duane Freeman led the Matadors' hitting attack with a solo homerun in the fourth inning, as they collected only 5 hits off two Devil pitchers, and flubbed 6 times in the defensive end of the game.

Whisman claimed the victory and the loss went to Karl Jordan.

Escondido pitcher Lotpritz held the Miguel baseballers scoreless until the sixth stanza when they blasted their five runs across the plate, and then Steve Thurlow came in to put out the fire.

The Cougars scored once in the second; five times in the third; three runs crossed in the fourth, and 2 more in the fifth.

Bill Lefler was charged with the loss, after going three innings before Ron Scagliotti came in for 1 inning before yielding the chores to Bill Leep.

Short Shots . . .

The big question in major league baseball thus far is did **Frank Lane,** general manager of the American League **Cleveland Indians,** make a good trade when he sent home run hitting Rocky Colovite to the **Detroit Tigers** for Harvey Kuenn? **Colovito** was one of the leading home run hitters in the majors last year, but had a low batting average, while **Kuenn** (pronounced keen) lacked the RBI's and home runs but had a .323 batting average that was tops in the American League. Detroit has been undefeated so far this young season, and Cleveland won its first game in 5 starts with a 7-0 victory over the Kansas City Athletics Sunday. Colovito could be all that the Tigers needed — **the big punch** . . .

Sweetwater's new football bleachers might be fine for the football season, but when baseball starts at the National City school an outfielder is in an obstacle course. The bleachers are in center field and what would ordinarily be an easy out goes into the bleachers and is good for a ground rule double. In right field, the fielder usually is on the track or out on the football field with a big light pole in his way also . . .

Since **Paradise Mesa Dragstrip** closed down a few years ago to make room for new houses, the sport then moved to **Hourglass Field** near Miramar Naval Air Station, but the drags there were not sanctioned as they were at Paradise Mesa. One of the big reasons for them being non-sanctioned is that the strip is not a quarter-mile long and no timing devices or dragters may be used. The Hourglass Strip lies on Federal property and the **Federal Authorities** have moved in to shut down the drags, and at present this presents a large problem for young hot rod enthusiasts who in general were dragging their cars off the streets. The nearest strips available for racing are at **Colton, Riverside, Holtville** and **Bakersfield** just to name a few. With such a great demand for a strip in the local area where could one be built? Without more strips available more dragging will be carried on the the freeways that are used heavily nowadays and on some side streets. Where can these people find a place off the street to race their cars and machines . . . **Bill Ott**
